FOR IMMEDIATE RELEASE

**TESSERAE BAROQUE ENSEMBLE
SELECTED AS THE 2020 HANS SCHMELZER MUSIC AWARD RECIPIENT**

CHATSWORTH, CA (December 28, 2020) – The Alemannia Music Foundation has selected the Tesseract Baroque Ensemble (Altadena, California) as the recipient of the *2020 Hans Schmelzer Music Award*. The award was made in recognition of the efforts the ensemble to provide musicians and students the opportunity to study music influenced by the German cultural areas of Central and Eastern Europe. The award includes a \$1,000 grant to be used by the organization for its music program.

The award selection committee cited the ensemble’s concert earlier this year that was entitled *The Legend of Zelenka*. The event included outstanding music of the baroque era and highlighted the particular influence of the city of Dresden, Germany, on some of the finest musicians and composers in Europe. In a letter to Joel Krajewski, President of the Tesseract Baroque Ensemble, the committee stated, “We know that by studying and performing music of this type your musicians and music students will have a greater appreciation for the origins of all genres of modern music and will have a broader awareness of the rich spectrum of music from around the world.”

The performance was held in The Pompeian Room of the Doheny Mansion, Los Angeles, on February 23, 2020, and was sponsored by Mount Saint Mary’s University.

The *Hans Schmelzer Music Award* was established in 2010 by the Alemannia Music Foundation to promote the study by musicians and students in the So. California area of music from the German speaking regions of Central and Eastern Europe. Through this study, musicians and students will be able to better connect themselves with the roots of music development while also enhancing their own talents and applying their knowledge to the further development of music as a whole. More information about the award or the AMF is available at www.alemanniamusic.org.

The Alemannia Music Foundation, Inc., is a recognized 501(c)3 non-profit educational organization which is supported by donations from private individuals and organizations. It is the goal of the AMF to educate both musicians and the general public about the music of Central and Eastern Europe to develop a better understanding of its origins and influences in our culture and achieve an appreciation for the ethnic diversities and strengths in our society.

The AMF provides workshops and participatory performance opportunities to musicians throughout the Southern California area wishing to study Central and Eastern European music. And through such performances, the AMF provides public education and appreciation for the richness and diversity of this music. The AMF also seeks to promote this class of music by providing grants to schools and other educational institutions, as well as supporting civic and cultural societies, clubs, and organizations who seek music education and appreciation for their members.
